

ARIZONA WORKFORCE

EMPLOYMENT REPORT

Arizona Department of Commerce, Research Administration

February 26, 2009

January Job Losses Greater Than Expected; Unemployment Rate Rises to 7 Percent

According to the business establishment survey, Arizona's nonfarm payrolls declined by 74,400 jobs in January. Losses are typical in January; however, January 2009 losses were larger than the 10-year average for the month.

Over-the-year, nonfarm employment fell by 155,400 jobs (5.9 percent). The 12-month job loss was Arizona's largest since data collection began in 1939.

The seasonally adjusted unemployment rate for the state was 7.0 percent (up from 6.6 percent), below that of the national level. The national unemployment rate rose to 7.6 percent from 7.2 percent.

January Release Reflects Benchmarked Data

This release incorporates the results of Current Employment Statistics benchmarking for 2007 and 2008.

As a result of benchmarking, the average nonfarm employment for 2007 was revised upward by 7,700, from 2,666,000 to 2,673,700. The average nonfarm employment for 2008 was revised downward by 7,800, from 2,624,100 to 2,616,300.

For more information on benchmarking, please see page 3.

All 11 major industry groups reported monthly employment losses, with goods-producing industries losing 12,700 jobs and service-providing industries dropping 61,700.

Service-providing industries represented 83 percent of the total job losses for the month, a little less than their share (86 percent) of overall nonfarm employment. Three major industries -- trade, transportation and utilities; professional and business services; and government -- accounted for three-quarters of the service-providing losses in January.

Trade, transportation and utilities pared the largest number of jobs (-18,900). The retail trade sector accounted for the majority of the decline (-13,000), with all its subsectors having greater-than-seasonally expected January losses. The largest single loss in retail trade was in general merchandise (-5,500), due mainly to the department store sector (-4,100), evidence that consumers have curtailed spending. Utilities employment was flat over-the-month.

Professional and business services lost 16,400 jobs. Most of the decline was in administrative and support and waste services (-11,700), with the bulk of losses in employment

services (-8,700).

Leisure and hospitality pared 4,500 jobs, with accommodation and food services having the largest decrease (-3,800). Food services and drinking places was responsible for the

continued on page 2

majority of the losses (-2,700). Accommodation was down by 1,100.

Financial activities declined by 2,600 jobs. Losses occurred largely in the real estate and rental and leasing sector (-1,900). Finance and insurance pared 700 jobs. While declines are typical for financial activities in January, losses were greater than the 10-year-average.

Educational and health services trimmed 3,600 jobs. Almost all of the losses were in educational services (-1,800) as seasonally expected. Health care and social assistance was down by an equal amount.

About This Publication

Arizona Workforce is published 14 times a year by the Arizona Dept. of Commerce, Research Administration (RA) — 12 as the monthly Employment Report and twice a year as RA's two-year Forecast Report.

Copies of the reports are available at RA's Web site, www.workforce.az.gov, or by requesting a printed copy by calling 602-771-1100; writing to 1700 W. Washington, B32, Phoenix, AZ 85007; or sending an e-mail to: webmaster@workforce.az.gov

Material published in *Arizona Workforce* is in the public domain and can be reproduced without further permission. Appropriate citations are requested.

Dennis Doby	Senior Director, Research Administration
Frank Curtis	Director, Data Systems

Construction (-9,800) was responsible for the majority of jobs lost in the goods-producing industries ... Construction has now had 17 consecutive over-the-month losses and 25 consecutive over-the-year losses.

With a decrease of 300 jobs, information lost employment for the eighth consecutive month.

Construction (-9,800) was responsible for the majority of jobs lost in the goods-producing industries, largely in specialty trades (-7,200). The loss was greater than the 10-year average monthly decline for this industry in January. Construction has now had 17 consecutive over-the-month losses and 25 consecutive over-the-year losses.

Government employment had the

third largest super-sector loss (-12,600). The bulk of the declines occurred in local education (-7,200).

Manufacturing lost 2,300 jobs, with the majority of losses occurring in durable goods (-1,700). Durable goods had declines in fabricated metal products (-400) and computer and electronic parts (-200). Aerospace products and parts was flat in January, and was up by 2.5 percent over-the-year.

With continuing scaling back of operations, natural resources and mining lost an additional 600 jobs. Metal ore mining contributed to the majority of the loss (-500).

Arizona's economy showed greater-than-expected post-holiday losses in January, with all 11 major industry groups trimming employment levels. The state's economy has had four consecutive months of over-the-month job losses. Nonfarm employment reached its last peak in December 2007.

Equal Opportunity Employer/Program (see back page for more information)

State CES Program Publishes Results of Benchmarking

Questions: Why are the numbers for previous years revised at the beginning of each year? Which years are revised? When will all the revised numbers be available?

Every year prior to the release of the January estimates, the Current Employment Statistics program (CES) revises previous estimates to incorporate data from the Quarterly Census of Employment and Wages (QCEW), a Bureau of Labor Statistics (BLS) program which provides a count of 98 percent of total nonfarm employment.

Information on the remaining 2 percent of employment is obtained from other sources, and the QCEW data is adjusted to obtain a 100 percent count of employment.

The replacement of CES estimates with adjusted data from the QCEW program is called benchmarking, and the new employment figures are often referred to as benchmarked data.

Quarters for which QCEW data is not yet available are re-estimated using the latest available sample data.

The choice of which quarters are replaced and which are re-estimated depends on how much QCEW data is available at the time of benchmarking and varies from state to state.

With the publication of the January 2009 Arizona and sub-state estimates, CES employment figures from April

Arizona Workforce Q&A

Each month, Arizona Department of Commerce, Research Administration provides a brief description of terminology and topics discussed in the monthly Arizona Workforce Employment Report. An archive of these articles can be found on the Arizona Workforce Informer Web site: www.workforce.az.gov.

2007 through June 2008 have been updated using the adjusted QCEW employment counts, and estimates for July 2008 through December 2008 have been replaced with new estimates.

Unemployment statistics cannot be benchmarked in the same way as employment statistics, because there is no BLS program which provides an actual count of the unemployed.

However, the Local Area Unemployment Statistics (LAUS) program estimates – for the labor force, employment, unemployment and the seasonally adjusted and unadjusted unemployment rates -- are also revised annually to incorporate new data and to insure that the annual average unemployment rate is the same as the annual average rate as measured by the Current Population Survey.

This year, Arizona LAUS data will be revised for years 2004 through 2008.

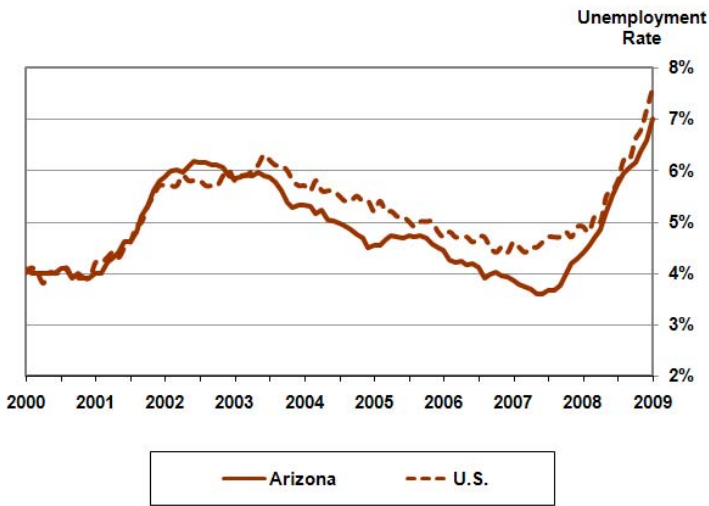

The new CES estimates have been incorporated in this release, as have the revised statewide LAUS estimates.

All benchmarked CES data for 2007 and 2008 can be found on the “Employment” section of the *Arizona Workforce Informer* Web site (see link inside box to the left).

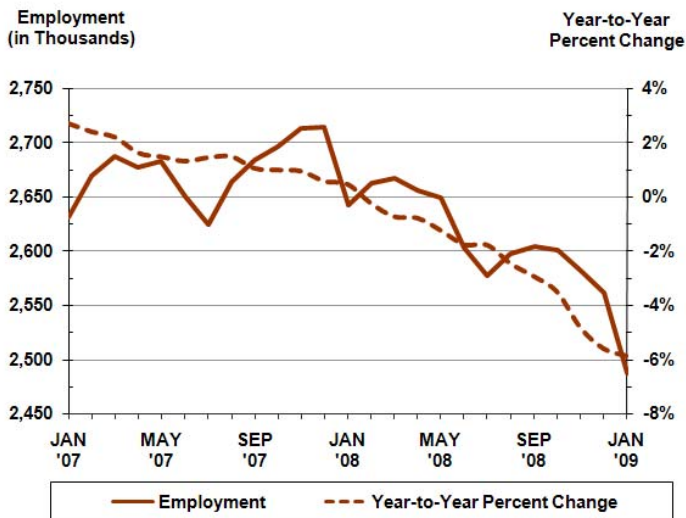

The LAUS revisions for MSAs, counties, and cities are in progress. New estimates will be released as they become available and will also be available on the Web site.

**ARIZONA DEPARTMENT
OF COMMERCE**

The center for economic advancement

— Equal Opportunity Employer/Program —

Under Titles VI and VII of the Civil Rights Act of 1964 (Title VI & VII), and the Americans with Disabilities Act of 1990 (ADA), Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975, the Department prohibits discrimination in admissions, programs, services, activities, or employment based on race, color, religion, sex, national origin, age, and disability. The Department must make a reasonable accommodation to allow a person with a disability to take part in a program, service or activity. For example, this means if necessary, the Department must provide sign language interpreters for people who are deaf, a wheelchair accessible location, or enlarged print materials. It also means that the Department will take any other reasonable action that allows you to take part in and understand a program or activity, including making reasonable changes to an activity. If you believe that you will not be able to understand or take part in a program or activity because of your disability, please let us know of your disability needs in advance if at all possible. To request this document in alternative format or for further information about this policy, contact the Department of Economic Security, Division of Developmental Disabilities ADA Coordinator at 602 542-6825 ; TTY/TDD Services: 7-1-1.
